

The Banker TECH PROJECTS AWARDS 2019

ENTRY CRITERIA

The Banker's Tech Projects Awards recognise innovation in financial technology.

They are judged on a project basis. Any party – for example a bank, consultancy, industry body, professional services organisation or technology provider – that has worked on the project may submit an entry.

The projects must have been implemented within a bank, whether retail, commercial, private, wholesale, investment or transaction bank. Or, if an industry-wide initiative, it must include banks or benefit the banking community.

Only one participant on the project needs to submit an entry, but the entry must mention if there were other parties involved in the project.

Information from the entries will be included in the write-up of the winning project in the August issue of The Banker.

The judges, made up of an external panel, will be looking for technology projects that demonstrate innovation, utility and transformation. The size of the project is not important and The Banker welcomes entries from organisations all over the world. Measurements of success, i.e. metrics, are critical components of any submission.

The deadline for entries is Friday, May 17th, 2019.

CATEGORIES

- Application programming interfaces (APIs)
- Artificial intelligence and robotics
- Compliance
- Cyber security
- Data
- Delivery channels
- Digital transformation
- Distributed ledger technology (DLT)
- Fintech partnership
- Mobile
- Payments
- Risk management
- Social media
- Trading platforms

ENTRY REQUIREMENTS

The deadline for entries is Friday, May 17th, 2019.

The entry period for the projects runs from May 2018 to May 2019. Projects must have been implemented and/or completed between these dates. The final phase of a multi-phase, multi-year project may be entered, provided it has been completed between May 2018 and May 2019.

Organisations may only enter one project per category. A single project may NOT be submitted in multiple categories. An organisation entering more than one category (with different projects) will need to submit separate entry forms. Judges may move an entry to another award category, if appropriate.

Entrants may include graphics in the entry form and may also send additional, relevant information. Anything too lengthy, however, will be ignored and exceeding the word limit is strongly discouraged. Succinct and relevant entries will be more effective.

The judges will be looking for entries that clearly demonstrate innovation, utility and transformation.

HOW TO SUBMIT ENTRIES

Entry forms should be completed and submitted before Friday, May 17th, 2019.

The completed entry form should be saved, in Word or pdf format, with a file name of Organisation_Category e.g. GreatBank_CustomerService.pdf

Multiple entries should be sent on separate entry forms.

**Please send entry forms to:
Technology.projects@ft.com**
